Your safety is our goal

Executive Vice Chairman Word

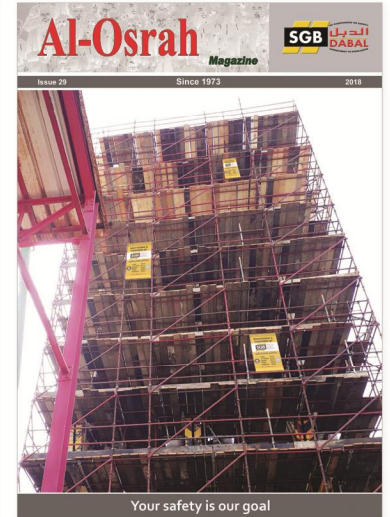

Welcome to the new issue of Al-Osrah magazine covering a full year of activities and success in 2017.

No doubt it was a year that (again) SGB Al-Dabal team has worked extremely hard to meet all the challenges backed up with overall management support that led to a big fulfillment of success.

We have maintained our Quality & Safety to be our No. 1 goal with no compromise.

Good Luck, I wish you every success in 2018.

Yousef K. Al-Dabal 20th Year Service Celebration

March 2017

In March 2017, the Company represented by the Board Members have celebrated the 20th Year Service Anniversary of Mr. Yousef Al-Dabal.

All board members have celebrated the event. various speeches were delivered and trophies were presented to Mr. Yousef during this ceremony.

President & Vice President

Emad K. Al-Dabal
President

SGB Al-Dabal Co. is completing 45 years in business since its operation was established by our late father Khalid Al-Dabal in 1973. During this period we have steadily grown to where we are today as a Market Leader in Scaffolding & Formwork Specialist providing our services Kingdom wide with first class manufacturing & design facilities backed up with full Technical Operatives, Staff & Management.

I want to thank all operatives, Staff & Management at SGB Al-Dabal who made 2017 a year full of hard work and success.

In 2017 we have worked very closely with our clients in reaching our operational objectives. This can only be done while keeping a very close relationship with customers as well as having such an excellent and professional team on the ground.

I'm so confident that 2018 would be a year full of success. I wish you all another great year.

Yousef K. Al-Dabal
Vice President

I believe that, in all companies, the top Management is constantly striving to develop strategies that will increase revenue and allow the company to operate more efficiently and achieve higher profits, a wide range of strategic alternatives to choose from are:

- Monitoring industry trends and anticipate markets needs.
- Looking for new products or services to offer to customers.
- Seeking out new channels of distribution for current products and services.
- Managing expenditures is a key role in business success or failure.
- Employees training creates more productivity & efficiency.
- Finding lower-cost suppliers with no compromise in quality & Safety.
- Dealing with market challenges & competition.
- Having Contingency planning to manage risks.
- Reviewing the company's operations to find ways of saving money.
- Building competitive advantage by offering products or services with more effective solutions to customers.

HR Division

Reda Farag Ali Ibrahim
SGB Al-Dabal - Head Office
Administration Manager

During the year 2017, we have completed a long process of Manpower Recruitment of a major number of Engineers, Safety Officers, Supervisors, Skilled Scaffolders and semi-skilled operatives.

It took 2 years of formalities to accomplish the recruitment stages from different countries to cover our current needs of for our various business activities in all locations. Our next target is to recruit around 400 new members within the coming 12 to 16 months period to cover all of our requirements. During the process of recruitments, all candidates go through various tests with very high standards and measures. Upon new member's arrival, our concerned technical and training team has a well designed development programs to improve their skills, capabilities, and knowledge.

Finance Division

Munther S. M. Salameh
SGB Al-Dabal - Head Office
Finance Manager

What is VAT?

Value Added Tax (VAT) is an indirect tax imposed on all goods and services that are bought and sold by businesses, with a few exceptions. VAT is applied in more than 160 countries around the world as a reliable source of revenue for state budgets. VAT is imposed at each stage of the supply chain from the production and distribution to the final sale of the goods or services.

Saudi Arabia is committed to imposing VAT with effect from JANUARY 1, 2018 VAT will be introduced at a standard rate 5%.

The VAT was originally a French idea, started in the 1950s. Britain introduced it as part of its condition of joining the European Economic Community. All countries joining the EEC had to replace their indirect taxes with the VAT. It replaced the Purchase Tax, which was a fairly complex system that had many different rates. In the early days it was a relatively low level of no more than 10 percent, with the exception of petrol and – briefly – electrical appliances, which were deemed in the days before Britain struck North Sea oil to be luxuries. They were subject to a 25 percent rate.

However, Heath's Government, when in opposition, had always promised that key essential teams would not be subject to VAT, such as books.

It came into force in 1973, introduced by Lord Barber, the chancellor under Sir Edward Heath, and started off as a simple 10 percent tax on nearly all goods bought from a business. Since then it has swollen in size, complexity, and popularity. Paddy Behan, a partner at Vantis accountancy firm and considered to be among the country's leading VAT specialists, said: "It is a hugely efficient tax, it's a great tax from a revenue-raising exercise. It has swept the world. More than 130 countries have now adopted it from Belgium to Burkina Faso.

Factory Update

Al-Dabal Scaffolding Factory

Nadeem Ashraf Sheikh
Factory Manager

Al-Dabal Scaffolding Factory, a supporting facility of SGB Al-Dabal Co. Ltd. is one of the leading manufacturer of high-quality Scaffolding and Formwork based in the 2nd Industrial city Dammam since 1997 with a total annual output capacity of more than 4000 MT. We are readily identified as one of the few professionally well-established scaffolding factories, reputed and reliable for the supply of scaffolding to work on civil & Government projects and in the petrochemical oil & gas industry in KSA.

Our factory policy is to provide every customers with high-quality scaffolding & formwork materials to fulfill their requirements. It is all achieved through a structured quality management system to comply with ISO-9001 standards.

The factory was designed and built not only to cater for the sales business of the company but to continuously service and refurbished materials used for hire and contracts divisions to ensure the safety, reliability and the availability of fit for use material on all sites.

Hire & Sale Overview

Company Hire & Sale 2017

Hire & Sale Overview

Riyadh Activities Update

A Radisson blue hotel Riyadh is being constructed within the premises of the New Riyadh Chamber of Commerce, SGB Dabal's Riyadh team worked closely with Al Latifia Contracting company and have helped in the construction of the 6 floor Hotel on time and within budget. Approximately 3100m² out of 20,000m² of slab were poured using primary & secondary aluminum slab formwork, whilst Cuplok was used for slab support. Both systems allowed the client's quick pouring schedules to be achieved. SGB design team has performed a major scaffolding structure around the 6 floor high hotel building to allow access for the cladding and finishing of building structure.

DAMMAM HIRE AND SALES 2016 & 2017

Considering the current economical situation, SGB Al-Dabal Company top goal is to retain its competitive edge. In Dammam area, our team members where working very closely and actively with key customers to secure new projects. The sales team has managed to add new clients to our existing customer base. Various successful jobs have been achieved during the year such as:

Bin Zagar Factory for insulation (Aramco Projects)
Abdullah Al Mutawa Sons Company Aramco Projects
Eastern Trading Establishment (Aramco Projects)
Discovery Trading & Contracting
Air Liquid Khobar Bin Quarraya Plant
Obayan Trading & Contracting
Isam Kabani

Jubail

Jubail Branch is conducting a few major projects such as Royal Commissions' Bridge 2 using the Cuplok System, 4-phase bridge project of Saudi Withcon Co. Ltd.

The project is expected to be completed by early 2018. Using MK2 and Du-Al wall formwork systems with Jomac Co. to build a tank wall for Saudi Aramco - Fadhili.

The project consists of tanks of at an average length of 95m and 3.0m height.

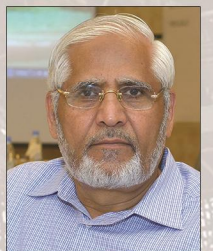

SGB Dabal supplied a massive amount of scaffolding materials (Cuplok, Tubes & Couplers) to PCMC Co. to support Ibn Sina Plant, Ma'aden P8 & P2 Plant (Saudi Aramco)

Contracts Overview

Company Long Term Contracts 2017

Saudi Aramco - Southern Area

Andy Morrison
General Manager
Contracts

In 2017, SGB Al Dabal successfully renewed their long-term scaffolding maintenance contract for the Southern Area Gas Plants. This cover Hawiyah, Hawiyah NGL, Uthmaniyah, Harad, Khurais and Shedgum gas plants.

The Southern Area is one of the busiest, with plants being upgraded and the harsh weather, with driving sand, taking its toll on the plants increasing the need for maintenance. There is an expansion planned for Hawiyah Gas plant starting 2018 and there are also new plants planned for the Harad area and a major piping link up with over 100 well heads to increase the productivity of the existing fields.

One of the major changes in this area has been the introduction of the brand new multi-million riyal Tammimi Camp. This has been built in conjunction with Saudi Aramco to service all contractor's personnel in the Southern Area. It is a fully integrated camp for 5,000 men, providing excellent accommodation for all levels and provides 3 meals a day in their restaurants to suit all tastes and nationalities.

There are numerous recreational facilities for basketball, football, volleyball, cricket, tennis, baseball and inside there are fully equipped gyms with all the modern machines and free weights for lifting. Other rooms have table tennis, pool, snooker, table football and large television rooms and library for relaxing after a hard day's work. There are grocery shops, barbers, laundry as well as their own medical clinic and ambulance service and a fire station for this "Village in the Desert.". This village has greatly enhanced the quality of life of all, with better living, food and recreational facilities described and has taken away the burden from the contractors and leaves them to concentrate on providing the specialist services to the oil fields and gas plants.

SGB Dabal have increased their manpower in the area and have recently purchased 3 No – 40 seater buses and 6 new trucks to enhance the service they provide to effectively distribute the men and materials from the one camp location, instead of three smaller camps previously.

Contracts Overview

Company Contracts 2017

Renewed

In 2017, SGB Al Dabal successfully renewed their long term scaffolding maintenance contract for the Southern Area Gas Plants. This covers Hawiyah, Hawiyah NGL, Uthmaniyah, Harad, Khurais and Shedgum gas plants. Saudi Aramco were very pleased with the service we provided over the previous 5 years and this has assisted when they evaluated the bids for this prestigious contract. There are also new projects going ahead in 2018 in the Southern Area around Harad and additional units being constructed in Hawiyah Gas Plant. It was therefore a very strategic objective to secure this area with this increase in activity.

New:

SGB AL Dabal secured a new scaffolding contract covering Safaniyah and Tanajib on shore plants and the offshore platforms in the Zuluf, Marjan and Safaniyah fields off the north east coast of Saudi Arabia. This is a substantial contract which started in the 4th quarter of 2017 and has many years to run. We have increased the size of our camp, delivered new materials which are then transferred by boat to the offshore facilities and then men arrive by helicopter after they have completed Helicopter Emergency Under Water Training at a special facility in Al Khobar, where they are placed in a mock helicopter and tipped upside down into a swimming pool, then they have to escape and swim to the surface.

We have also recently won another bid with Aramco in Yanbu NGL, which is another contract for scaffolding services and will dovetail nicely with our existing YANBU COT (Crude Oil Terminal) as we already have accommodation and yard in Yanbu. This is part of our expansion plans in the Western Region and will provide steady maintenance income and will allow us to look at other opportunities with other plants and turnaround work, as we will have a good solid base to move forward our goals.

Bid:

Two big contracts are up for renewal in the 1st quarter of 2018, Abqaiq Plant and the surrounding GOSP (Gas Oil Separation Plants) and also the mega Ras Tanura refinery. The SGB Dabal executive management team will review the bids and look at the new costings of 5% VAT and the ones that may come into play, namely the New Expat Levy which will increase for the next 3 years, also expected fuel, electricity and custom increases have to be covered in this rapidly changing economic climate for the period of these new contract.

SGB Al-Dabal is up for the challenges that lay ahead and we would also like to take this opportunity to thank all operatives and staff for the hard efforts throughout 2017 and wish them and their families a safe and prosperous 2018.

Area Manager

SAUDI ARAMCO - Ras Tanura

SGB Al-Dabal Co. has been very busy on all Saudi Aramco projects and maintenance works throughout the organization in this year. Rastanura maintenance was ongoing for NGL, Utilities, North and South Refinery, Tank farms, the terminal, Sea Island & JOP off shore activities. Plus the Juaima gas plant with over 16,000+ scaffolds erected/dismantled this year

We are complying with Saudi Aramco GI. , SA. Construction Safety Manual and implementing company Safety policy and apply safe work practice at the work place always.

This year we have introduced into our workforce 2 more new NEBOSH trained safety officers Ajith Radhakrishnan Emp 2984 and Mohamed Azarudeen Emp 3383 to help implement all our company safety procedures and training.

All works during the year has been done by a dedicated crew of 78 Scaffolders along with 25 Saudi employees and all with Zero accidents, injuries, lost time injuries or first-aid treatment. We recognise our workforce for their continued excellent safety record and commitment to working safely at the worksite.

Every month SGB Al-Dabal safety team along with management attend Safety meetings held by Aramco on the Main plant, Terminal and the Contractor Park Administration and we give safety suggestions, presentations and interact with other contractors as well as Aramco to make the work place be a safer area.

Every month SGB Safety officer compiles a Monthly Health and Safety Report with the number of toolbox talks, statistical report, accident frequency ratio, task observation report, inspection reports and any findings from work sites on any safety issues there may have.

All living accommodations are inspected every quarter by Saudi Aramco Proponent, Camp Administration Department, Fire Protection Department, Loss prevention Department and Environmental Protection Department with no findings and if some minor deficiencies are found they are corrected within the required time. All Lay down yards is inspected quarterly, by the proponent and all are meeting with Aramco standards.

We give our work force continued scaffold training in our outside yard in Rahima, on all aspects of scaffolding, as well as retrieving men from falls, plus any new scaffold components or lessons to be learnt are shared.

SGB Al-Dabal provide training programs in our Rahima Yard for our employees to motivate and increase the competency and efficiency of our work force, all of this carried out under supervision of our leading Nebosh trained, Head Safety Officer "Anshad Vavakunju"

Training from the company, Aramco & Third party includes the following:

- Safety induction training
- Scaffold construction & dismantling training for new arrivals
- Work Permit Receivers training
- Personal Water Survival Training (PST)
- Helicopter User's Escape Training (HUET)
- CPR & BLS training
- Emergency Evacuation Training
- Defensive Driving Program

It has been normal Aramco plant maintenance activities from January to September with some work carried out for SA KENTS on some project work, on around 800 jobs.

Very challenging work has been carried out on the Terminal Sea Island and north pier loading arms, having our Engineering designer, Mr. Ruben (from our Jubail Office) changing the whole design of the loading arms to meet the new safety requirements for this work, he has also been kept busy designing scaffold plans and drawings for erecting scaffolding outside and inside various tanks and columns to meet Aramco safety standards.

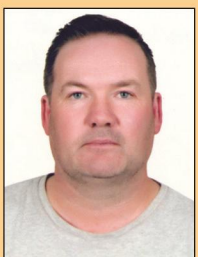

The summer months saw very high temperatures in the Kingdom with over 40c plus in many areas, due to this, and the Holy month of Ramadan, SGB Al-Dabal along with Saudi Aramco continually monitored the work force for signs of fatigue and heat stress while carrying out their duties along with building shaded areas and having plenty of water at hand for all workers, as a result of this all Employees had a safe and stress free summer in all the plants.

During the year we have had planned shutdown work on 30/1 plant erecting internal and external scaffolds to boilers 9, 10, 11 and 12

During July and August we erected a 22m high scaffold on the boiler stack to fit new nozzles also in June and July a high elevation scaffold was erected (74m high) on C200 30" line and along pipe way 5.

November/December saw a large increase in scaffolds for UT testing of pipe work ready for the main shutdown this year and next year, on various plants and pipe bridges.

Ras-Tanura main plant, have planned major shutdowns this year, starting November 26th on plants J24 and J64 for 45 Days, this will require a substantial increase in man power and materials to cover this work 24/7 and pre-shutdown work will start 2 weeks before this date, all drawings and designs required for this work have been completed and approved by Aramco.

Contracts Highlights

SABIC (Saudi Basic Industries)

JUBAIL

The first six months of 2017 have undoubtedly been the busiest turnaround season in the last twenty years. There were no less than seventeen turnarounds in the six months to June. The main reason was budgets were released for 2017, after having an austere 2016 due to the low oil price and everybody wanted to finish their turnaround before the warm weather arrived and Ramadan which started near the end of May.

In January, the major turnaround was in SADAF EDC which lasted for 45 days, and involved large internal scaffolds for Vessels V1, V2 and V3 which were under a substantial refurbishment program. These vessels had to be entered from the top and a man lowered down to the bottom 24 m, we then lowered material and started to build from bottom up. These were safely completed and ahead of schedule.

This was followed by the Styrene II turnaround which included removing and replacing 3 exchangers, which weighed 10 tons at 22m level, 14 tons at 28m level and a monster 40 tons at 18m level. These could not be lifted straight out of the pipe rack, but had to be removed by placing them on a special trolley which then winching them onto a "railway line" to the edge of the unit, onto a supporting platform capable of taking the weights mentioned, then lifted by crane and lowered to the ground. The sequence was repeated in reverse to move the new exchangers into position. Please note that the 40 Ton exchanger was placed on a platform constructed of welded steel I-H beams, as the weight would have been too great even for scaffolding.

Next mega turnaround was Kemya who had KOP and UOD as well as some special projects going on at the same time. SGB Dabal provided support scaffold to the underside of warehouse roof trusses, while an extensive repair program took place of renewing damaged trusses and roof panels. The scaffold allowed the daily warehouse operations to continue while the roof was supported with special soldier beams.

There were other turnarounds in HADEED - Barmill, Ibn Zahr - MTBE I, Petrokemya - Olefins III and AR Razi V, which had a substantial upgrade of the flare line during April. More recently NIGC Phase VIII turnaround with compressor replacement, Phase 5 and 7 with full external scaffold on the water cooling towers. There is also a plan to start a 65m high "Cold Box" in mid-December for welding and repairs while the weather is cooler. In SAFCO IV we have built scaffolds for the Ammonia plant which is undergoing jumbo upgrade and has been going on for over 3 months, due to the massive amount of work being undertaken to add new plant and modify existing processes for a more productive and reliable plant.

All in all, Jubail has been very busy during 2017 and the signs for 2018 are encouraging with once every 10 years' full plant turnaround in Ibn Zahr to start in March 2018 (building scaffold through Dec, Jan & Feb) and a one off scaffold for full concrete cooling tower in SAFCO IV for external repairs and Cathodic protection.

HSE Roles And Responsibilities For SGB Personnel Working on Site

All Disciplines

- * Comply with Plant Procedures
- * Comply with all Safety toolbox talks given.
- * Co-ordinate with each other to enable scaffold operations on site runs Safely & smoothly.

1. Site Supervisors

- 1: Must ensure that all Completed scaffolds conform to the EN 12811-1 (E) Standards.
- 2: All Personnel under their control are fully aware of and instructed in their responsibilities.
- 3: Safety Information is passed to the workforce on a regular basis.
- 4: Responsible for the health and welfare of the personnel working under him.
- 5: Each workplace under their control is safe & appropriate equipment is available and used.
- 6: Near miss incidents investigated and steps taken to prevent re-occurrence.

2. Site Foremen

- 1: Hazards have been identified, and controls are in place in that location. (RAMS)
- 2: Permit relates to the Scaffold requirements and procedures for the works.
- 3: Material is the correct quantity and quality to complete the Job.
- 4: Instruct workforce of safety issues by means of toolbox talks.
- 5: Manpower is proficient in the work to be undertaken.

6: Manpower is aware of the scaffold requirements.

7: Monitor the workforce's performance frequently during work hours.

3. Site Permit Receiver.

- 1: The permit is valid and details concerning the particular work involved are correct.
- 2: Make sure the workforce is aware of the instructions relating to the permit.
- 3: Standby and assist the workforce with the scaffold activities.

4. Site Safety Representative.

- 1: Ensure all Site HSE Procedures, are explained periodically to the workforce and to make sure they understand and comply with the instructions (Daily Toolbox Talks).
- 2: Inspect the Site on a regular basis to make sure the working conditions for the personnel will be safe and if there are any related hazards and risks, they are identified and controlled.
- 3: While on site Inspections, ensure personnel are wearing the correct PPE and they are following the correct procedures in scaffold operations.
- 4: Meet with the client's safety department frequently to discuss and solve any safety issues that arise.

5. Site Scaffold Inspector.

- 1: Check that all Scaffolds carry a identification tag.
- 2: There is a recorded inspection system held in the site office which is updated daily.
- 3: All scaffolds which have been erected comply with the scaffold regulations, and (if applicable) the Diagrams related to said scaffolds.
- 4: Any scaffolds still in use after a seven day period must be re-inspected and recorded, conduct immediate inspection if adverse weather, modifications, excavations, or struck by machinery have affected the scaffold.

6. Site Drivers.

- 1: Must adhere to all site traffic regulations, including the safe transportation of personnel, materials around the Site.
- 2: Check the condition of the vehicles daily/weekly in case of faults appearing that make it un-roadworthy.

7. Site Scaffolders

- 1: Make sure all scaffolds that are erected are in the right location, and they meet the requirements of the end user and supervisors instructions.
- 2: All scaffold components are in good Condition before using,
- 3: Correct PPE worn at all times, including full body harness with two shock absorbing lanyards when working above 1.8 metres Height.
- 4: Follow safe method of work when doing any scaffolding regardless of which category.
- 5: Keep other work colleagues under observation in case of any forgetfulness by them. (Remember every man is his own safety officer).
- 6: Report any near misses you are involved in, regardless of how trivial you think they are.

8. Site Scaffold Helpers

- 1: Ensure you understand & comply with any instructions you receive from SGB competent persons.
- 2: Do not erect or dismantle Scaffolds unless authorized to do so.
- 3: Do not modify any Scaffolds unless authorized to do so.
- 4: When Handballing/Chaining Scaffold materials at a height, ensure you are adhering to the fall protection system.
- 5: Do not overload the Scaffold Materials Trolley.
- 6: After every job completion ensure there is a Tidy up / housekeeping carried out and any surplus material is returned to the designated lay down area.

SGB Al-Dabal Insight

SGB Al-Dabal - Managers Meeting

Managers Meeting held at Head Office 13,03,2017

During the year 2017, Managers Meetings took place on quarterly basis at the Head Office facilities.

All managers discussed various topics such as:

Turnover, Debtors & Creditors, Contracts, Hire & Sale Business, Manpower, Saudization, Current Visas, Collections, Customer Service, Quality & Safety.

Management financial and operational decisions are normally taken at this level of meeting.

Photo taken during the Managers Meeting lead by the company president Mr. Emad K. Al-Dabal.

Aramco Visits

SAUDI ARAMCO - SAOO 2017

SGB Al-Dabal Company Management had two business meetings with Aramco for both contracts of Abqaiq and Safaniyah. Abqaiq meeting was held in Aramco office in abqaiq and the second meeting was held with Aramco delegates at SGB Al-Dabal Office in Dammam. Mr. Saleh Al-Juaidan, Manager of Abqaiq Plant Maintenance Department discussed with SGB Al-Dabal deligates some business development issues on the sideline of Saudi Aramco Southern Area Oil Operations (SAOO) Conference.

SAOO continues to lead the way in innovation in the oil and gas industry and is an example of operational excellence, the SAOO Innovation Campaign and Exhibition was recently held by Aramco senior management on 18th October 2017.

At an opening ceremony attended by SAOO management and distinguished guests, the importance of pursuing innovation and excellence was underlined by keynote speaker, Saudi Aramco's chief technology officer, in the presence of the Southern Area Producing General Manager who gave a speech addressing the importance of innovation to Saudi Aramco and to SAOO.

In the opening speeches, it was highlighted that Saudi Aramco and SAOO continues to strengthen and sustain a robust, creative and innovative organizational culture: "The most successful individuals, managers and team leaders in the latest business world are the ones who not only innovate in their own work, but who encourage and assist others to be innovative in every aspect of their work. SAOO believes that innovation is a key enabler for improved business productivity and underpins the competitiveness of all SAOO departments. The innovation is all about creating new values.

Aramco SAOO Event

Aramco recognition

During 2017 SAOO Contractor Safety Campaign which was held Ain Nakhl, Abqaiq from 18-20 October 2017, under the slogan (Our Safety is You), Aramco SAOO contractors have participated in the event which was carried out to promote safety and increase awareness.

Our safety Advisor Nashit Ahmed has given a speech presented to Mr. Amin Hasan Al-Naser Aramco President & CEO, Mr. Khalid A. Al-Buraik Southern Area Oil Operation Vice President, Aramco executives and various contractor representatives.

Speech was as follows:

I am much honored to be standing here to share with you the greatest personal learning experience I had with my involvement in the 2017 Southern Area Oil Operations contractor Safety Campaign, under the theme "OUR SAFETY IS YOU".

From the early stage of the design of the campaign, I was one of the 28 contractor's company representatives who attended the Saudi Aramco workshop exploring the general safety of contractors, both at work and at home. All of us were given the opportunity to discuss and exchange our experience of the common safety challenges we encounter as contractors in our daily lives.

As a result of brainstorming and forum exchange, we the contractor employees were empowered to meaningfully contribute to the design of the campaign that so successfully followed. We were given the opportunity to play an active role in the key area which attracted more than 3000 contractor employees.

Personal experience outside the classroom is where the real education occurs.

The whole SAOO campaign was an eye opener and an awareness program for all. Several specially focused workshops as well as the sports tournament increased the awareness of special safety topics and heightened a sense of our belongings to our jobs and the working community here in Aramco. It internally shaped the thoughts of our employees. They automatically started responding to the thoughts with the feeling i.e. the emotional response. The story of Raju "who represent a typical contractor employee" and his daily challenges struck the chords and guaranteed the attention and safety knowledge among the contractors.

These thoughts and feelings influenced the belief and attitude in the working behavior and decision making.

As a Safety Advisor I can say the labors that previously sometimes used to work without a proper PPE's started to know the importance of them. They themselves stop the work if they don't have the proper equipment's or proper PPE. They know that they are authorized to stop the work is the conditions are not in their favor to work safely.

So why did the change in behavior occur? They became Safety believers!

While safety education describes the "who, what, when, where and how", it is also important to explain "why" of safety. The employees learned why it is important to use safe procedures and practices. The more they understand the importance of safety procedures and practices, the more likely they will use them in the field.

I know I can speak for my colleagues when I say "OUR SAFETY IS YOU" campaign has made us feel very much a part of Saudi Aramco family and we hope that the campaign will grow its success every year with our help and commitment. We look at safety in a whole new way each day at home and work.

Thank You!

Nashit Ahmed

KSA - VAT (Value Added Tax)

The SGB Al-Dabal held an explanation session of Value Added Tax (VAT) at our Head Office which was carried out by Rami Al-Khedher Public Certified Accountants Office on 6th December 2017.

This event was attended by SGB Al-Dabal Company President, Business Development Manager, Senior Managers, Finance Team Members of SGB Al-Dabal and some sister companies plus all company team members who are involved in invoicing.

An open discussion took place and all inquiries related to VAT were raised, the instructors from Rami Al-Khedher Public Accountants Office have answered all questions and all related matters were discussed.

Quality ISO 9001

Senior members of SGB Dabal Quality Management team attended an ISO 9001:2015 Awareness Training Course recently at our head office facilities in Dammam.

The session was given by consultant Mr Huzefa Dahodwalla of Al Masader Al Dualiyah for Environment & quality Systems Co.

The new standards focus on internal and external issues that are relevant to the organizations purpose, strategic direction and ability to achieve intended outcomes of the Quality Management System. The top Management will be more involved in setting policy and objectives in line with strategic business goals and make sure resources are available and communicate the importance of effective QNS and conformance to requirements.

There is another Work Shop planned for 11th of January 2018, to look at actual implementation processes and time schedule with initial assessment taking place in February and final audit scheduled for March 2018.

Saudi New Vision

Saudi Vision 2030

All success stories start with a vision, and successful visions are based on strong pillars.

The Kingdom is determined to reinforce and diversify the capabilities of the economy, turning all key strengths into enabling tools for a fully diversified future.

As such, The Kingdom will transform Aramco from an oil producing company into a global industrial conglomerate.

Saudi Arabia is determined to build a thriving country in which all citizens can fulfill their dreams, hopes and ambitions. Therefore, it will not rest until the nation will become a leader in providing opportunities for all through education and training, and high quality services such as employment initiatives, health, housing, and entertainment.

Together we will continue building a better country, fulfilling our dream of prosperity and unlocking the talent, potential, and dedication of our young men and women. We will not allow our country to be at the mercy of a commodity price volatility or external markets.

We have all the means to achieve our dreams and ambitions. There are no excuses for us to stand still or move backwards.

Our Vision is a strong, thriving, and stable Saudi Arabia that provides opportunity for all.

We will welcome qualified individuals from all over the world and will respect those who have come to join our journey and our success.

We intend to provide better opportunities for partnerships with the private sector through the three pillars: our position as the heart of the Arab and Islamic worlds, our leading investment capabilities, and our strategic geographical position.

Together, with the help of Allah, we can strengthen the Kingdom of Saudi Arabia's position as a great nation in which we should all feel an immense pride.

NEOM

Neom is to be the grandest manifestation of that vision. A city of the future, the likes of which the world has never seen—except maybe in science fiction books and movies.

It will be an independent zone, with its own regulations and social norms, created specifically to be in service of economic progress and the well-being of its citizens, in the hopes of attracting the world's top talent and making Neom a hub of trade, innovation and creativity."

The city's (NEOM) vision is to be at the forefront of nine key economic sectors, including energy and water, biotech, advanced manufacturing, and food.

الأثار الإيجابية للإقلاع عن التدخين تبدأ من الدقائق الأولى

ممر التدخين موهج بألوان كثيرة لتأويله ولكن أكثر دقة فإن أول الأثار الهيجابية التي تحدثه داخل الجسم بعد ترك التدخين تبدأ من الدقائق الأولى. هذه الطريقة يمكن المساعدة المدخنين على الإقلاع في أسرع وقت ممكن

- دقيقة 20 - 30**
 - انخفاض ضغط الدم
 - انخفاض القلب
 - تقليل الالتهاب والشهيق
- 8 ساعات**
 - انخفاض مستويات غاز أول أكسيد الكربون في الدم
 - ارتفاع مستويات الأكسجين في الدم
- 48 ساعة**
 - تحسن في حاسة الشم والذوق
- 72 ساعة**
 - استرخاء الشعب الهوائية
- سنة**
 - انخفاض خطر الإصابة بأمراض القلب إلى النصف مقارنة بالمدخنين
 - زيادة قدرتها على التحمل
- سنة 3 أشهر**
 - تحسن الدورة الدموية في الرئة
 - زيادة قدرتها على التحمل
- سنة 9 أشهر**
 - انخفاض السعال واحتقان الحنجرة
 - تحسن عمل الرئتين في التخلص من المخاط والتقليل من الإصابة بالعدوى
 - تحسن في الحافة المانعة
- 5 سنوات**
 - انخفاض خطر الإصابة بجلطات القلب إلى النصف مقارنة بالمدخنين
 - انخفاض خطر الإصابة بسرطان الفم والحنجرة والفم والفم والفم إلى النصف
 - انخفاض خطر الإصابة بسرطان عنق الرحم إلى مستوى غير المدخنين
- 10 سنوات**
 - انخفاض خطر الإصابة بسرطان الرئة إلى النصف مقارنة بالمدخنين
 - انخفاض خطر الإصابة بسرطان البنكرياس إلى مستوى غير المدخنين
- 15 سنة**
 - انخفاض خطر الإصابة بأمراض القلب إلى مستوى غير المدخنين
 - احتشالية انوية مغارب تماماً لاحتشالية غير المدخنين

فوائد رياضة المشي

هل تعلم؟!

عندما تشرب الماء وأنت جالس

- يذهب من جسمك جميع الترسبات الضارة
- ونمها الترسبات التي تسبب حصى الكلى.

أما الشرب ثلاثاً

- فإنه كلها شربت وتوقفت للتفلس
- ياخذ الجسم أكسجين ويعطي أنسولين للجسم والأنسولين يحمي من مرض السكري.

صلى الله عليه وسلم

Sports Sponsorship

22nd Annual Charity Run

SGB Al-Dabal has sponsored the 22nd Annual Charity Run that took place in Al-Khobar on Saturday 25/11/2017

Cuplok Scaffolding System was supplied and erected to provide seating for more than a thousand spectators who attended, SGB Al-Dabal members, some of our clients and suppliers have participated in the event.

During this competition we have achieved a good record through our company delegates.

SGB Al-Dabal management takes this opportunity to thank all participants for their presence as well congratulate all winners and wishing them every success in the coming event of 2018.

Sports Sponsorship

CRICKET

SAOO Cricket Tournament -2017 (Abqaiq Aramco)

The Southern Area Oil Operations contractor safety campaign cricket tournament 2017, was held at Abqaiq community seniors cricket ground. Sixteen teams including SGB AL DABAL had participated in the tournament. Sports tournament increased the awareness of special safety topics and heightened a sense of our belongings to our jobs and the working community here in Aramco.

“Great moments are born from great opportunity”, we value the opportunity that we got to share the emotions of joy and excitement, which all of us expect from the event. It was pleasure for us to see, that so many contractors gathered there were keen on sport and support the ideals of fair play, equal opportunities, volunteering and education through sport, fostered by Southern Area Oil Operations. Abqaiq Aramco, lately and after completing the tournament, SGB Al-Dabal Team has reached the final match and won the second place.

BASKETBALL

Sponsorship of M.O.L. Basketball Tournament

SGB Al-Dabal Company has sponsored a basketball tournament that was organized during the month of May by the Ministry of Labor and called “WAEI” basketball Tournament.

SGB Al-Dabal Basketball Team along With 7 other teams have participated in the “WAEI” Basketball tournament and our SGB Dabal Basketball Team have achieved Second place.

Biking Team

Al-Dabal Biking Team - Trip to Al-Hasa

The Biking Team of 17 members have started their biking tour from Al-Khobar to Al-Jafr of Al-Ahsa Area on Friday 15th December 2017, they were able to complete the trip of 112 Km. successfully, at the end of the tour all have gathered in Al-Dabal Farm to take their dinner and to socialize.

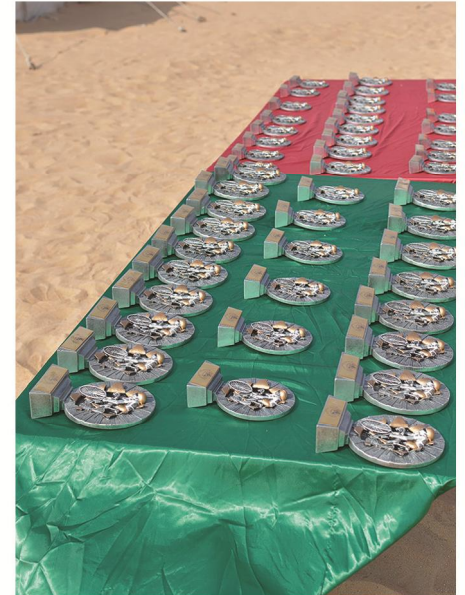

Biking Team

Al-Dabal Biking Team - Trip to Riyadh

Two weeks later from Al-Ahsa Biking tour, the Biking Team have made their 2nd trip on Riyadh road at Al-Rafeiyah area on Friday 29th December 2017.

The same members of the Biking Team has safely and successfully completed the trip of 60 Km. regardless the weather conditions, there was a lot of efforts exerted and a great enthusiasm to achieve the mission on the targeted time scale. The team members are eager to start preparing for their 3rd trip which would be decided in a later stage.

Saudi National Team Russia 2018

الفريق الوطني السعودي لكرة القدم يتأهل لنهائيات كأس العالم روسيا ٢٠١٨

حرص ولي العهد، الأمير محمد بن سلمان، على الحضور إلى ملعب مدينة الملك عبدالله الرياضية بجدة "الجوهرة المشعة"، خلال الشوط الثاني من مباراة السعودية واليابان، ضمن الجولة العاشرة والأخيرة من تصفيات آسيا المؤهلة إلى كأس العالم روسيا ٢٠١٨.

وكان لحضور الأمير محمد بن سلمان أثر كبير في رفع الحالة المعنوية لدى اللاعبين، وتحفيز نجوم المنتخب السعودي لتحقيق الفوز بعد نهاية الشوط الأول بالتعادل السلبي بدون أهداف، وظهر سمو ولي العهد عقب نهاية اللقاء سعيدًا بنجاح الأخضر في تحقيق الانتصار الغالي، وإسعاد الشعب السعودي.

وسجل المنتخب السعودي هدف الفوز عن طريق فهد المولد في الدقيقة ٦٣، من قذيفة مدوية يمينه سكنت شبك المنتخب الياباني، لتعلن عن فوز الأخضر بهدف دون رد في مباراة العبور إلى كأس العالم روسيا ٢٠١٨.

أجريت في برج الدبل بالدمام قرعة دورة الفقيه عبدالله الدبل الرمضانية الحادية عشرة، وتم تقسيم الفرق المشاركة الى اربع مجموعات، ضمت الأولى فرق: المشوى العنابي والأفق وسبورتى وباترك. وضمت الثانية فرق: كلاست والزهراني واصدقاء الحساني والبيوت المتجددة. وضمت الثالثة: MAZ والشربيني وغزال المحيط وباولستا، واخيرا ضمت الرابعة: أبناء الذوادي والراشد قوديير والعقال العصري وإخاء الشرقية، فيما تقرر انطلاقة المباريات يوميا في الساعة العاشرة مساء بواقع أربع مباريات يوميا .

Abdullah Al-Dabal Tournament

حفل الافتتاح دورة الدبل الحادي عشر

العمدة

بدأ البرنامج بآيات من الذكر الحكيم، ثم كلمة لجنة الدورة ألقاها الأستاذ سلطان بن عبدالله الدبل عضو اللجنة الاشرافية للدورة والذي أكد أن دورة التقيد عبدالله الدبل وجدت لتخلد ذكراه وما قدمه للرياضة السعودية لسنوات طويلة، وأكد الدبل أن الدورة لا تقضى على إقامة الدورة الرياضية بل تتعداها الى إقامة البرامج الأخرى كالزيارات الاجتماعية وبرنامج افطار صائم ومسابقة القرآن الكريم، ثم تم عرض الافتتاح عبر التذكير بالدورات الماضية وإعلان تيممة الدورة التي تم اطلاق اسم (العمدة) عليها وسط ترحيب جماهيري كبير ودخولها الى أرض صالمة المباريات. ثم تشييد الشعار تضمن حفل افتتاح الدورة تشييد الشعار الجديد وقام بتدشينه أشقاء التقيد المهندسون يوسف وعادل ونبيل أبناء خالد الدبل، عندما تقدم بعض الأطفال بالشعار الى ارضية الملعب ومن ثم تمت إزاحة الستار عنه من قبل أبناء الدبل، ليتم اعتماد الشعار الجديد حاضرا في كل الدورات القادمة.

برنامج إفطار الصائم

انطلق برنامج افطار صائم بمتابعة رئيس اللجنة ناصر الدوسري، الذي هو أحد الشعاليات المصاحبة للدورة من خلال تجهيز الوجبات في مقر نادي الاتفاق ومن ثم توزيعها في بعض النقاط في شوارع الدمام والخبر، اضافة الى جسر الملك ههد وتر اختتام البرنامج في بيت الله الحرام بمكة المكرمة، وتم توزيع اكثر من ٥٠٠٠ وجبة وبيڈل أعضاء لجنة افطار صائم جهودا كبيرة في سبيل اعداد وتجهيز الوجبات وتوزيعها وقت الافطار طيلة أيام الدورة

استقبال دار الحضارة

قامت لجنة الدورة ممثلة في مدير عام الدورة ههد بن عبدالله الدبل ويحضور عضو اللجنة الاشرافية للدورة سلطان بن عبدالله الدبل وقيمتة أعضاء اللجنة بتكريم منسوبي دار الحضارة الاجتماعية وذلك لحضورهم فعاليات الدورة ومتابعتهم المباريات في اليوم الثالث .

زيارة دار الرعاية الاجتماعية للمسنين

بتواجد من مدير عام الدورة المهندس ههد بن عبدالله الدبل ورئيس اللجان العاملة للدورة انور المقهوي ورئيس لجنة العلاقات العامة حسين الغامدي والعضو بدر الدبيان ورئيس لجنة السكرتارية والمالية عادل المظفر، وعضو اللجنة الاعلامية ماجد الشمري، حيث قامت اللجنة بزيارة دار الرعاية الاجتماعية للمسنين، ورحب بالحضور مدير الدار ههد العميرة وعبد العزيز الكثيري مشرف البرامج والانشطة، وتم خلال الزيارة الالتقاء بمنسوبي الدار والتواصل معهم من خلال الاحاديث الودية

Abdullah Al-Dabal Tournament

زيارة مستشفى الولادة والأطفال بالدمام

قامت اللجنة بزيارة مستشفى الولادة والأطفال بالدمام، بحضور انور المقهوي رئيس اللجان العاملة، وحسين الغامدي رئيس لجنة العلاقات العامة وعادل المخيمر رئيس لجنة السكرتارية والماليّة، وماجد الشمري عضو اللجنة الإعلامية. وكان في استقبالهم مدير العلاقات العامّة مسفر القحطاني وساعد مدير المستشفى عجلان العجلان والمدير الطبي للمستشفى الدكتور بسام الحجيلي، وقامت اللجنة بزيارة لأقسام المستشفى وزيارة الأطفال المنومين وتقديم الهدايا التذكارية لهم. وشكرت ادارة المستشفى القائمين على دورة التقيد الدبل مثل هذه الزيارة السنوية، التي ترفع من الروح المعنوية لدى الأطفال المنومين

زيارة معهد التربية الفكرية

قامت اللجنة بزيارة معهد التربية الفكرية وبرنامج التوحد بالدمام، حيث استقبلهم مدير المعهد محمد القحطاني، حيث بدأت الزيارة بجولة على الضول الدراسية والالتقاء مع المعلمين وكذلك الطلاب، ثم عرض القائمون على دورة التقيد الدبل نشاطات الدورة وأهدافها. وفي الختام، قدمت اللجنة المنظمّة للدورة دعماً مالياً للمعهد ثم تقديم درج الدورة لمدير المعهد مع باقات من الورود لجميع العاملين، إضافة إلى تقديم درج خاصة للدورة.

استقبال الجمعية السعودية للسكر والغدد الصماء

قامت الجمعية السعودية للسكر والغدد الصماء بالتواجد في أروقة الدورة، وقام منسوبيها بتحليل السكر للجمهور وتوزيع أجهزة قياس السكر وبروشورات عن مرض السكر وطرق الوقاية منه وكيفية التعامل مع الأطفال المصابين بالمرض. وألقى الدكتور كامل سلامة الأمين العام للجمعية السعودية للسكر والغدد الصماء بالمنطقة الشرقية كلمة للجمهور عن السلامة من هذا المرض. وقام بتكريمه المهندس خالد بن عبدالله الدبل.

مهرجان الأطفال بالصالة الرياضية

أقامت الدورة مهرجان وحفل خاص بالأطفال وقاد الحفل فرقة نجوم الشرقيّة بتواجد جراح الدوسري وياسر الشارقي حيث أقيمت فعاليات متنوّعة لأطفال الدورة من خلال المسابقات الحركية بمشاركة الآباء، إضافة إلى توزيع الهدايا من ألعاب للأطفال وكوبونات مشتريات من محل - ران إن -.
